Subject Index

Accessory muscle, tarsal tunnel syndrome in athletes, 1307
Achilles tendon
  Achilles tendon and paratendon microcirculation in midportion and insertional tendinopathy in athletes, 92
  avoiding sural nerve injuries during percutaneous Achilles tendon repair, 793
  dynamic ultrasound as a selection tool for reducing Achilles tendon reruptures, 1395
  high-energy extracorporeal shock wave therapy as a treatment for insertional Achilles tendinopathy, 733
  intrinsic risk factors for the development of Achilles tendon overuse injury, 226
  ultrasonographic investigation of the Achilles tendon in elite badminton players using color Doppler, 2013
Acromioclavicular (AC) joint
  biomechanical evaluation of an anatomical coracoclavicular ligament reconstruction, 236
  double-loop suture repair for acute acromioclavicular joint disruption, 1112
Acromion, surgical stabilization of os acromiale in a fast-pitch softball pitcher, 1855
Adolescents
  autologous osteochondral mosaicplasty for capitellar osteochondritis dissecans in teenaged patients, 1233
  effect of a balance training program on the risk of ankle sprains in high school athletes, 1103
  epidemiological analysis of factors influencing an episode of exertional rhabdomyolysis in high school students, 481
  injuries to high school football athletes in California, 1147
  injury rates, risk factors, and mechanisms of injury in minor hockey, 1960
  nonunion of olecranon stress fractures in adolescent baseball pitchers, 653
  risk factors for injury in indoor compared with outdoor adolescent soccer, 1636
  risk factors for noncontact ankle sprains in high school football players, 471
Age, range of joint movement in female dancers and nondancers aged 8 to 16 years, 814
Alignment, jump-land characteristics and muscle strength development in young athletes, 375
All-inside, 1281
Allograft
  allograft reconstruction for massive, irreparable rotator cuff tears, 392
  anatomical posterior cruciate ligament transplantation, 1126
  comparison of fresh osteochondral autografts and allografts, 1084
  the effect of gamma irradiation on anterior cruciate ligament allograft biomechanical and biochemical properties in the caprine model at time zero and at 6 months after surgery, 1747
  meniscal allograft transplantation in the sheep knee, 1464
Anabolic-androgenic steroids, doping control for the team physician: a review of drug testing procedures in sport, 1690
Anatomical reconstruction
  biomechanical evaluation of an anatomical coracoclavicular ligament reconstruction, 236
  recurrent subluxation of the peroneal tendons, 986
Anatomy, anatomical study of the femoral and tibial insertions of the anteromedial and posterolateral bundles of human anterior cruciate ligament, 787
Anchors, suture anchors and tacks for shoulder surgery, part II, 136
Androgenic-anabolic steroids, androgenic-anabolic steroids associated with mechanical loading inhibit matrix metallopeptidase activity and affect the remodeling of the Achilles tendon in rats, 1274
Anesthesia, continuous femoral nerve block versus intra-articular injection for pain control after anterior cruciate ligament reconstruction, 1328
Angiogenesis
  effects of local administration of vascular endothelial growth factor on mechanical characteristics of the semitendinosus tendon graft after anterior cruciate ligament reconstruction in sheep, 1918
  effects of local administration of vascular endothelial growth factor on properties of the in situ frozen-thawed anterior cruciate ligament in rabbits, 84
Animal model
  effects of augmentation with swine small intestine submucosa on tendon healing under tension, 275
  meniscal allograft transplantation in the sheep knee, 1464
  replacement of the knee meniscus by a porous polymer implant, 64
  in vivo injury model of posterolateral knee instability, 1313
Ankle
  altered neuromuscular control and ankle joint kinematics during walking in subjects with functional instability of the ankle joint, 1970
  changes of Achilles midportion tendon microcirculation after repetitive simultaneous cryotherapy and compression using a Cryo/Cuff, 1953

The American Journal of Sports Medicine, Vol. 34, No. 12
DOI: 10.1177/0363546506295931

© 2006 American Orthopaedic Society for Sports Medicine

effect of a balance training program on the risk of ankle sprains in high school athletes, 1103
intrinsic risk factors for the development of Achilles tendon overuse injury, 226
ligamentous posttraumatic ankle osteoarthritis, 612
outcomes of stress fractures of the talus, 1809
prospective, randomized clinical investigation of the treatment of first-time ankle sprains, 1401
retrograde drilling for osteochondral lesions of the talar dome, 1450
significance of peroneus tertius muscle in ankle injuries, 1159
sports and recreation activity of ankle arthritis patients before and after total ankle replacement, 993
twenty-six-year results after Broström procedure for chronic lateral ankle instability, 975
Anterior cruciate ligament (ACL)
acute compartment syndrome due to ruptured Baker cyst after nonsurgical management of an anterior cruciate ligament tear, 657
anatomical double-bundle anterior cruciate ligament reconstruction after valgus high tibial osteotomy, 961
anatomical study of the femoral and tibial insertions of the anteromedial and posterolateral bundles of human anterior cruciate ligament, 787
anterior cruciate ligament injuries in female athletes, 299, 490
anterior cruciate ligament reconstruction using navigation, 542
anterior cruciate ligament tear rate varies by race in professional women's basketball, 895
biodegradable and metallic interference screws in anterior cruciate ligament reconstruction surgery using hamstring tendon grafts, 1574
comparing the incidence of anterior cruciate ligament injury in collegiate lacrosse, soccer, and basketball players, 899
comparison of bone–patellar tendon–bone and bone–hamstring tendon–bone autografts for anterior cruciate ligament reconstruction, 213
current concepts review: revision anterior cruciate ligament reconstruction, 2026
effect of cyclic loading on rotated bone-tendon-bone anterior cruciate ligament graft constructs, 1442
effect of direction and reaction on the neuromuscular and biomechanical characteristics of the knee during tasks that simulate the noncontact anterior cruciate ligament injury mechanism, 43
effect of functional bracing on knee injury in skiers with anterior cruciate ligament reconstruction, 1581
the effect of gamma irradiation on anterior cruciate ligament allograft biomechanical and biochemical properties in the caprine model at time zero and at 6 months after surgery, 1747
effect of gender and maturity on quadriceps-to-hamstring strength ratio and anterior cruciate ligament laxity, 370
the effects of estrogen on material and mechanical properties of the intra- and extra-articular knee structures, 1948
effects of knee flexion angles for graft fixation on force distribution in double-bundle anterior cruciate ligament grafts, 577
effects of local administration of vascular endothelial growth factor on mechanical characteristics of the semitendinosus tendon graft after anterior cruciate ligament reconstruction in sheep, 1918
effects of local administration of vascular endothelial growth factor on properties of the in situ frozen-thawed anterior cruciate ligament in rabbits, 84
effects of plyometric versus dynamic stabilization and balance training on lower extremity biomechanics, 445
femoral press-fit fixation technique in anterior cruciate ligament reconstruction using bone–patellar tendon–bone graft, 220
gender differences in outcome after anterior cruciate ligament reconstruction with hamstring tendon autograft, 621
hamstring muscle function after tendon harvest for anterior cruciate ligament reconstruction, 281
long-term outcome of endoscopic anterior cruciate ligament reconstruction with patellar tendon autograft, 721
magnetic resonance imaging analysis of bioabsorbable interference screws used for fixation of bone–patellar tendon–bone autografts in endoscopic reconstruction of the anterior cruciate ligament, 1164
maturation leads to gender differences in landing force and vertical jump performance, 806
medial opening wedge tibial osteotomy and the sagittal plane, 1431
operative and nonoperative treatments of medial collateral ligament rupture with early anterior cruciate ligament reconstruction, 1134
outcomes of anterior cruciate ligament injuries to running backs and wide receivers in the National Football League, 1911
a prospective, randomized comparison of semitendinosus and gracilis tendon versus patellar tendon autografts for anterior cruciate ligament reconstruction: five-year follow-up, 1933
relationship between menstrual cycle phase and anterior cruciate ligament injury, 757
relationship between quadriceps muscle force, knee flexion, and anterior cruciate ligament strain in an in vitro simulated jump landing, 269
revision anterior cruciate ligament reconstruction with hamstring tendon autograft: 5- to 9-year follow-up, 1604
six degrees of freedom kinematics of the knee after anterior cruciate ligament deficiency, 1240
tendon healing in a bone tunnel differs at the tunnel entrance versus the tunnel exit, 1790
understanding and preventing noncontact anterior cruciate ligament injuries, 1512
in vivo kinematics of the knee after anterior cruciate ligament reconstruction a clinical and functional evaluation, 2006
Anterior instability
anterior shoulder stabilization in collision athletes, 979

arthroscopic versus open shoulder stabilization for recurrent anterior instability: a prospective randomized clinical trial, 1730
long-term results of arthroscopic Bankart repair with a bioabsorbable tack, 1906
Anteromedial bundle (AMB), anatomical study of the femoral and tibial insertions of the anteromedial and posterolateral bundles of human anterior cruciate ligament, 787
Arches, interaction of arch type and footwear on running mechanics, 1998
Arthritis
ligamentous posttraumatic ankle osteoarthritis, 612
sports and recreation activity of ankle arthritis patients before and after total ankle replacement, 993
Arthroscopy
arthroscopic capsulolabral reconstruction for posterior instability of the shoulder, 1061
arthroscopic rotator interval closure: effect of sutures on glenohumeral motion and anterior-posterior translation, 1656
arthroscopic versus open shoulder stabilization for recurrent anterior instability: a prospective randomized clinical trial, 1730
biomechanical comparison of traditional and locked suture configurations for arthroscopic repairs of the rotator cuff, 1832
continuous femoral nerve block versus intra-articular injection for pain control after anterior cruciate ligament reconstruction, 1328
evaluation of the provocative tests for superior labral anterior posterior lesions, 265
lateral epicondylitis, 1486
long-term results of arthroscopic Bankart repair with a bioabsorbable tack, 1906
meniscal tear characteristics in young athletes with a stable knee, 1170
midterm and long-term results after arthroscopic suture repair of isolated, longitudinal, vertical meniscal tears in stable knees, 1072
osteochondritis dissecans of the entire femoral trochlea, 1508
retrograde drilling for osteochondral lesions of the talar dome, 1450
Arthrotomy, talar dome access for osteochondral lesions, 1457
Articular cartilage
comparison of fresh osteochondral autografts and allografts, 1084
high-impact athletics after knee articular cartilage repair, 1413
management of osteochondritis dissecans of the knee, 1181
mechanical and biochemical effect of monopolar radiofrequency energy on human articular cartilage, 1322
Artificial turf, peak torque and rotational stiffness developed at the shoe-surface interface, 415
Autograft, comparison of fresh osteochondral autografts and allografts, 1084
Autologous chondrocyte implantation (ACI)
autologous chondrocyte implantation postoperative care and rehabilitation, 1020
patellofemoral full-thickness chondral defects treated with Hyalograft-C: a clinical, arthroscopic, and histologic review, 1763
Axillary artery, thoracic outlet syndrome in a competitive baseball player secondary to the anomalous insertion of an atrophic pectoralis minor muscle, 1016
Baker cyst, acute compartment syndrome due to ruptured Baker cyst after nonsurgical management of an anterior cruciate ligament tear, 657
Balance training
anterior cruciate ligament injuries in female athletes, 490
effects of plyometric versus dynamic stabilization and balance training on lower extremity biomechanics, 445
risk factors for noncontact ankle sprains in high school athletes, 464
Ballistic, effects of stretching on passive muscle tension and response to eccentric exercise, 1000
Bankart repair
arthroscopic versus open shoulder stabilization for recurrent anterior instability: a prospective randomized clinical trial, 1730
long-term results of arthroscopic Bankart repair with a bioabsorbable tack, 1906
prospective outcome evaluation of arthroscopic Bankart repairs, 771
quantitative assessment of glenohumeral translation after anterior shoulder dislocation and subsequent arthroscopic Bankart repair, 1756
Baseball
biomechanical evaluation of 2 techniques for ulnar collateral ligament reconstruction of the elbow, 1599
complete cuboid dislocation in a professional baseball player, 21
elbow range of motion in professional baseball pitchers, 190
kinetic comparison among the fastball, curveball, changeup, and slider in collegiate baseball pitchers, 423
the modified docking procedure for elbow ulnar collateral ligament reconstruction: 2-year follow-up in elite throwers, 1594
nonunion of olecranon stress fractures in adolescent baseball pitchers, 653
osteochondral autograft transplantation for osteochondritis dissecans of the elbow in juvenile baseball players, 714
repair of full-thickness rotator cuff tears in professional baseball players, 182
risk factors for shoulder and elbow injuries in adolescent baseball pitchers, 905
Basketball
anterior cruciate ligament tear rate varies by race in professional women's basketball, 895
effect of a balance training program on the risk of ankle sprains in high school athletes, 1103
injury risk in professional basketball players, 1077

Biceps femoris, anatomical reconstruction of knee posterolateral complex with the tendon of the long head of biceps femoris, 1615
Biceps tendon
biomechanical comparison of intact tendon and 2 repair techniques, 968
transverse humeral ligament, 72
Bioabsorbable interference screw, magnetic resonance imaging analysis of bioabsorbable interference screws used for fixation of bone–patellar tendon–bone autografts in endoscopic reconstruction of the anterior cruciate ligament, 1164
Bioabsorbable tack, long-term results of arthroscopic Bankart repair with a bioabsorbable tack, 1906
Biodegradable implants, osteochondritis dissecans of the entire femoral trochlea, 1508
Biomechanics
anterior cruciate ligament injuries in female athletes, 299
arthroscopic rotator interval closure: effect of sutures on glenohumeral motion and anterior-posterior translation, 1656
biomechanical comparison of a single-row versus double-row suture anchor technique for rotator cuff repair, 407
biomechanical comparison of traditional and locked suture configurations for arthroscopic repairs of the rotator cuff, 1832
biomechanical evaluation of an anatomical coracoclavicular ligament reconstruction, 236
distal biceps tendon repair, 968
distraction forces on repaired bucket-handle lesions in the medial meniscus, 1941
effect of angled osteochondral grafting on contact pressure, 116
effect of cyclic loading on rotated bone-tendon-bone anterior cruciate ligament graft constructs, 1442
effect of direction and reaction on the neuromuscular and biomechanical characteristics of the knee during tasks that simulate the noncontact anterior cruciate ligament injury mechanism, 43
the effect of gamma irradiation on anterior cruciate ligament allograft biomechanical and biochemical properties in the caprine model at time zero and at 6 months after surgery, 1747
effects of augmentation with swine small intestine submucosa on tendon healing under tension, 275
the effects of estrogen on material and mechanical properties of the intra- and extra-articular knee structures, 1948
effects of local administration of vascular endothelial growth factor on mechanical characteristics of the semitendinosus tendon graft after anterior cruciate ligament reconstruction in sheep, 1918
effects of local administration of vascular endothelial growth factor on properties of the in situ frozen-thawed anterior cruciate ligament in rabbits, 84
effects of medialization and anteromedialization of the tibial tubercle on patellofemoral mechanics and kinematics, 749
effects of plyometric versus dynamic stabilization and balance training on lower extremity biomechanics, 445
elongation and structural properties of meniscal repair using suture techniques in distraction and shear force scenarios, 799
kinematics and kinetics of elite windmill softball pitching, 597
kinetic comparison among the fastball, curveball, change-up, and slider in collegiate baseball pitchers, 423
knee angular impulse as a predictor of patellofemoral pain in runners, 1844
low-intensity pulsed ultrasound accelerates and a nonsteroidal anti-inflammatory drug delays knee ligament healing, 1094
path of glenohumeral articulation throughout the rotational range of motion in a thrower's shoulder model, 1662
quantitative assessment of glenohumeral translation after anterior shoulder dislocation and subsequent arthroscopic Bankart repair, 1756
relationship between quadriceps muscle force, knee flexion, and anterior cruciate ligament strain in an in vitro simulated jump landing, 269
shock attenuation of various protective devices for prevention of fall-related injuries of the forearm/hand complex, 637
tibiofemoral contact mechanics after serial medial meniscectomies in the human cadaveric knee, 1334
where should the femoral tunnel of a posterior cruciate ligament reconstruction be placed to best restore anteroposterior laxity and ligament forces?, 604
Bone graft
anatomical glenoid reconstruction for recurrent anterior glenohumeral instability with glenoid deficiency using an autogenous tricortical iliac crest bone graft, 205
opening wedge high tibial osteotomy, 1262
Bone-to-tendon junction repair, low-intensity pulsed ultrasound accelerates bone-tendon junction healing, 1287
Bone tunnel, distal biceps tendon repair, 968
Bone–patellar tendon–bone (BPTB), effect of cyclic loading on rotated bone-tendon-bone anterior cruciate ligament graft constructs, 1442
Bristow-Latarjet, modified Bristow procedure for anterior shoulder instability, 778
Bucket-handle tear, elongation and structural properties of meniscal repair using suture techniques in distraction and shear force scenarios, 799
Cadaveric study
biomechanical and anatomical effects of an external rotational torque applied to the knee: a cadaveric study, 1623
path of glenohumeral articulation throughout the rotational range of motion in a thrower's shoulder model, 1662
quantitative assessment of glenohumeral translation after anterior shoulder dislocation and subsequent arthroscopic Bankart repair, 1756

Cannulated screw, a prospective, randomized comparison of semitendinosus and gracilis tendon versus patellar tendon autografts for anterior cruciate ligament reconstruction: five-year follow-up, 1933
Capsulolabral reconstruction, arthroscopic capsulolabral reconstruction for posterior instability of the shoulder, 1061
Cartilage
autologous chondrocyte implantation postoperative care and rehabilitation, 1020
effect of angled osteochondral grafting on contact pressure, 116
effects of calcified cartilage on healing of chondral defects treated with microfracture in horses, 1824
influence of intraoperative pretensioning on the chondroprotective effect of meniscal transplants, 397
magnetic resonance imaging of articular cartilage, 661
meniscal allograft transplantation in the sheep knee, 1464
technical errors during medial patellofemoral ligament reconstruction could overload medial patellofemoral cartilage, 1478
use of a single osteochondral autograft plug in the treatment of a large osteochondral lesion in the femoral condyle, 247
volume changes in the menisci and articular cartilage of runners, 832
Central cord syndrome, central cord syndrome in patients with Klippel-Feil syndrome resulting from winter sports: report of 3 cases, 1685
Cervical cord neurapraxia, catastrophic cervical spine injuries in high school and college football players, 1223
Cervical spine injury
acute cervical spine injuries in mountain biking, 487
the effect of protective equipment on cervical spine alignment in collegiate lacrosse players, 1675
Children, injury rates, risk factors, and mechanisms of injury in minor hockey, 1960
Chondral defect
patellofemoral full-thickness chondral defects treated with hyalograft-c: a clinical, arthroscopic, and histologic review, 1763
use of a single osteochondral autograft plug in the treatment of a large osteochondral lesion in the femoral condyle, 247
Chondrocytes
an allogenic cell–based implant for meniscal lesions, 1779
does subchondral bone affect the fate of osteochondral allografts during storage?, 586
patellofemoral full-thickness chondral defects treated with Hyalograft-C: a clinical, arthroscopic, and histologic review, 1763
Chondroprotective effect, influence of intraoperative pretensioning on the chondroprotective effect of meniscal transplants, 397
Clinical study, in vivo kinematics of the knee after anterior cruciate ligament reconstruction a clinical and functional evaluation, 2006
Coagulopathy, acute compartment syndrome due to ruptured Baker cyst after nonsurgical management of an anterior cruciate ligament tear, 657
Collagen
corticosteroids reduce the tensile strength of isolated collagen fascicles, 1992
effects of augmentation with swine small intestine submucosa on tendon healing under tension, 275
mechanical and biochemical effect of monopolar radiofrequency energy on human articular cartilage, 1322
Collision athletes
anterior shoulder stabilization in collision athletes, 979
prospective outcome evaluation of arthroscopic Bankart repairs, 771
Compartment syndrome, acute compartment syndrome due to ruptured Baker cyst after nonsurgical management of an anterior cruciate ligament tear, 657
Complications
opening wedge high tibial osteotomy, 1262
suture anchors and tacks for shoulder surgery, part II, 136
Computer-assisted surgery, anterior cruciate ligament reconstruction using navigation, 542
Concussions, the "value added" of neurocognitive testing after sports-related concussion, 1630
Contact area, tibiofemoral contact mechanics after serial medial meniscectomies in the human cadaveric knee, 1334
Contact pressure, effect of angled osteochondral grafting on contact pressure, 116
Contact stress, tibiofemoral contact mechanics after serial medial meniscectomies in the human cadaveric knee, 1334
Coracoclavicular (CC) stabilization, double-loop suture repair for acute acromioclavicular joint disruption, 1112
Corticosteroids, corticosteroids reduce the tensile strength of isolated collagen fascicles, 1992
Corticosterone, androgenic-anabolic steroids associated with mechanical loading inhibit matrix metallopeptidase activity and affect the remodeling of the Achilles tendon in rats, 1274
Creatine kinase, epidemiological analysis of factors influencing an episode of exertional rhabdomyolysis in high school students, 481
Cross-sectional area, incidence and cross-sectional area of the meniscofemoral ligament, 1345
Cruciate ligament, anterior cruciate ligament reconstruction using navigation, 542
Cryotherapy, changes of Achilles midportion tendon microcirculation after repetitive simultaneous cryotherapy and compression using a Cryo/Cuff, 1953
Cuboid dislocation, complete cuboid dislocation in a professional baseball player, 21
Cyclic loading, elongation and structural properties of meniscal repair using suture techniques in distraction and shear force scenarios, 799
Cyclooxygenase-2 (COX-2) specific inhibitor, COX-2 specific inhibitor valdecoxib versus tramadol in acute ankle sprain, 945
Dancers, range of joint movement in female dancers and nondancers aged 8 to 16 years, 814
Diagnostic, evaluation of the provocative tests for superior labral anterior posterior lesions, 265
Dislocation
prospective outcome evaluation of arthroscopic Bankart repairs, 771

technical errors during medial patellofemoral ligament reconstruction could overload medial patellofemoral cartilage, 1478
Docking technique, medial ulnar collateral ligament reconstruction of the elbow in throwing athletes, 1926
Dog, long-term outcome for large meniscal defects treated with small intestinal submucosa in a dog model, 32
Doppler
Achilles tendon and paratendon microcirculation in midportion and insertional tendinopathy in athletes, 92
ultrasonographic investigation of the Achilles tendon in elite badminton players using color Doppler, 2013
ultrasound-guided sclerosis of neovessels in painful chronic patellar tendinopathy: a randomized controlled trial, 1738
Dorsiflexion strength, significance of peroneus tertius muscle in ankle injuries, 1159
Double-bundle reconstruction
anatomical double-bundle anterior cruciate ligament reconstruction after valgus high tibial osteotomy, 961
effects of knee flexion angles for graft fixation on force distribution in double-bundle anterior cruciate ligament grafts, 577
importance of femoral tunnel placement in double-bundle posterior cruciate ligament reconstruction, 456
Double-loop suture repair, double-loop suture repair for acute acromioclavicular joint disruption, 1112
Drug testing, doping control for the team physician: a review of drug testing procedures in sport, 1690
Eccentric exercise, epidemiological analysis of factors influencing an episode of exertional rhabdomyolysis in high school students, 481
Elbow
arthroscopic treatment of posterolateral elbow impingement from lateral synovial plicae in throwing athletes and golfers, 438
autologous osteochondral mosaicplasty for capitellar osteochondritis dissecans in teenaged patients, 1233
biomechanical evaluation of 2 techniques for ulnar collateral ligament reconstruction of the elbow, 1599
elbow range of motion in professional baseball pitchers, 190
kinematics and kinetics of elite windmill softball pitching, 597
kinetic comparison among the fastball, curveball, change-up, and slider in collegiate baseball pitchers, 423
lateral epicondylitis, 1486
the modified docking procedure for elbow ulnar collateral ligament reconstruction: 2-year follow-up in elite throwers, 1594
nonunion of olecranon stress fractures in adolescent baseball pitchers, 653
operative treatment of ulnar collateral ligament insufficiency of the elbow in female athletes, 431
osteochondral autograft transplantation for osteochondritis dissecans of the elbow in juvenile baseball players, 714
treatment of chronic elbow tendinosis with buffered platelet-rich plasma, 1774
Electrodiagnostics, the effect of tennis racket grip size on forearm muscle firing patterns, 1977
Electromyography (EMG), altered neuromuscular control and ankle joint kinematics during walking in subjects with functional instability of the ankle joint, 1970
Elongation, weakness in end-range plantar flexion after Achilles tendon repair, 1120
Epidemiology
infectious disease outbreaks in competitive sports: a review of the literature, 1860
injuries to high school football athletes in California, 1147
injury risk in professional basketball players, 1077
risk factors for injury in indoor compared with outdoor adolescent soccer, 1636
Erythropoietin, doping control for the team physician: a review of drug testing procedures in sport, 1690
Estrogen, the effects of estrogen on material and mechanical properties of the intra- and extra-articular knee structures, 1948
Eversion strength, significance of peroneus tertius muscle in ankle injuries, 1159
Exertional rhabdomyolysis, epidemiological analysis of factors influencing an episode of exertional rhabdomyolysis in high school students, 481
Extensor mechanism, use of suture anchors in repair of the ruptured patellar tendon, 1492
External rotation, biomechanical and anatomical effects of an external rotational torque applied to the knee: a cadaveric study, 1623
Extracorporeal shock wave therapy (ESWT), high-energy extracorporeal shock wave therapy as a treatment for insertional Achilles tendinopathy, 733
Failure strength, distal biceps tendon repair, 968
Falling, shock attenuation of various protective devices for prevention of fall-related injuries of the forearm/hand complex, 637
Fasciotomy, acute compartment syndrome due to ruptured Baker cyst after nonsurgical management of an anterior cruciate ligament tear, 657
Female athletes. *see also* Women
anterior cruciate ligament injuries in female athletes, 299, 490
anterior cruciate ligament tear rate varies by race in professional women's basketball, 895
comparing the incidence of anterior cruciate ligament injury in collegiate lacrosse, soccer, and basketball players, 899
differences in torsional joint stiffness of the knee between genders, 765
exercise-related leg pain in female collegiate athletes, 1500
operative treatment of ulnar collateral ligament insufficiency of the elbow in female athletes, 431
range of joint movement in female dancers and nondancers aged 8 to 16 years, 814
surgical stabilization of os acromiale in a fast-pitch softball pitcher, 1855
Femoral nerve palsy, iliacus muscle rupture with associated femoral nerve palsy after abdominal extension exercises, 837

Fibrocartilage, osteochondral autograft transplantation in the porcine knee, 913
Fibular collateral ligament, in vivo injury model of posterolateral knee instability, 1313
Flexibility, effects of stretching on passive muscle tension and response to eccentric exercise, 1000
Flexor retinaculum, recurrent dislocation of the tibialis posterior tendon, 1852
Follow-up study, femoral press-fit fixation technique in anterior cruciate ligament reconstruction using bone–patellar tendon–bone graft, 220
Foot pronation, exercise-related leg pain in female collegiate athletes, 1500
Foot trauma, complete cuboid dislocation in a professional baseball player, 21
Football
  catastrophic cervical spine injuries in high school and college football players, 1223
  injuries to high school football athletes in California, 1147
  outcomes of anterior cruciate ligament injuries to running backs and wide receivers in the National Football League, 1911
  risk factors for noncontact ankle sprains in high school football players, 471
Force distribution, effects of knee flexion angles for graft fixation on force distribution in double-bundle anterior cruciate ligament grafts, 577
Force, kinetic comparison among the fastball, curveball, change-up, and slider in collegiate baseball pitchers, 423
Forearm, the effect of tennis racket grip size on forearm muscle firing patterns, 1977
Fractures, shock attenuation of various protective devices for prevention of fall-related injuries of the forearm/hand complex, 637
Functional bracing, effect of functional bracing on knee injury in skiers with anterior cruciate ligament reconstruction, 1581
Gait analysis, altered neuromuscular control and ankle joint kinematics during walking in subjects with functional instability of the ankle joint, 1970
Gamma irradiation, the effect of gamma irradiation on anterior cruciate ligament allograft biomechanical and biochemical properties in the caprine model at time zero and at 6 months after surgery, 1747
Gender differences
  anterior cruciate ligament injuries in female athletes, 490
  differences in torsional joint stiffness of the knee between genders, 765
  effect of gender and maturity on quadriceps-to-hamstring strength ratio and anterior cruciate ligament laxity, 370
  the effects of estrogen on material and mechanical properties of the intra- and extra-articular knee structures, 1948
  gender differences in outcome after anterior cruciate ligament reconstruction with hamstring tendon autograft, 621
  injury risk in professional basketball players, 1077
  maturation leads to gender differences in landing force and vertical jump performance, 806
Glenohumeral internal rotation deficit (GIRD), glenohumeral range of motion deficits and posterior shoulder tightness in throwers with pathologic internal impingement, 385
Glenohumeral joint
  arthroscopic rotator interval closure: effect of sutures on glenohumeral motion and anterior-posterior translation, 1656
  path of glenohumeral articulation throughout the rotational range of motion in a thrower's shoulder model, 1662
Glenoid deficiency, anatomical glenoid reconstruction for recurrent anterior glenohumeral instability with glenoid deficiency using an autogenous tricortical iliac crest bone graft, 205
Glenoid reconstruction, anatomical glenoid reconstruction for recurrent anterior glenohumeral instability with glenoid deficiency using an autogenous tricortical iliac crest bone graft, 205
Golfer, arthroscopic treatment of posterolateral elbow impingement from lateral synovial plicae in throwing athletes and golfers, 438
Graft fixation, effects of knee flexion angles for graft fixation on force distribution in double-bundle anterior cruciate ligament grafts, 577
Graft rotation, effect of cyclic loading on rotated bone-tendon-bone anterior cruciate ligament graft constructs, 1442
Graft-tunnel motion, tendon healing in a bone tunnel differs at the tunnel entrance versus the tunnel exit, 1790
Growth plate, wrist pain, distal radial physeal injury, and ulnar variance in the young gymnast, 840
Gymnastics, wrist pain, distal radial physeal injury, and ulnar variance in the young gymnast, 840
Hamstring
  biodegradable and metallic interference screws in anterior cruciate ligament reconstruction surgery using hamstring tendon grafts, 1574
  comparison between clinical assessment and magnetic resonance imaging of acute hamstring injuries, 1008
  comparison of bone–patellar tendon–bone and bone–hamstring tendon–bone autografts for anterior cruciate ligament reconstruction, 213
  gender differences in outcome after anterior cruciate ligament reconstruction with hamstring tendon autograft, 621
  hamstring muscle function after tendon harvest for anterior cruciate ligament reconstruction, 281
  importance of femoral tunnel placement in double-bundle posterior cruciate ligament reconstruction, 456
  incidence, risk, and prevention of hamstring muscle injuries in professional rugby union, 1297
  a prospective, randomized comparison of semitendinosus and gracilis tendon versus patellar tendon autografts for anterior cruciate ligament reconstruction: five-year follow-up, 1933

revision anterior cruciate ligament reconstruction with hamstring tendon autograft: 5- to 9-year follow-up, 1604
revision reconstruction of a pectoralis major tendon rupture using hamstring autograft, 295
Hand, locked metacarpophalangeal joint in a 20-year-old football player, 29
Handheld dynamometer, rotator cuff functional index, 956
Healing, elongation and structural properties of meniscal repair using suture techniques in distraction and shear force scenarios, 799
Heel rise, weakness in end-range plantar flexion after Achilles tendon repair, 1120
Heterotopic ossification, massive heterotopic ossification complicating iliopsoas tendon lengthening, 2022
High arch, interaction of arch type and footwear on running mechanics, 1998
High tibial osteotomy (HTO)
anatomical double-bundle anterior cruciate ligament reconstruction after valgus high tibial osteotomy, 961
medial opening wedge tibial osteotomy and the sagittal plane, 1431
Hip strength
risk factors for noncontact ankle sprains in high school athletes, 464
role of hip muscle function in the treatment of patellofemoral pain syndrome, 630
Histomorphometry, tendon healing in a bone tunnel differs at the tunnel entrance versus the tunnel exit, 1790
Hockey, injury rates, risk factors, and mechanisms of injury in minor hockey, 1960
Human growth hormone, doping control for the team physician: a review of drug testing procedures in sport, 1690
Humphry ligament, incidence and cross-sectional area of the meniscofemoral ligament, 1345
Hyaline articular cartilage, osteochondral autograft transplantation in the porcine knee, 913
Hyperabduction syndrome, thoracic outlet syndrome in a competitive baseball player secondary to the anomalous insertion of an atrophic pectoralis minor muscle, 1016
Hyperthermia, short-term effectiveness of hyperthermia for supraspinatus tendinopathy in athletes, 1247
Iliopsoas tendon
iliacus muscle rupture with associated femoral nerve palsy after abdominal extension exercises, 837
massive heterotopic ossification complicating iliopsoas tendon lengthening, 2022
Immediate Postconcussion Assessment and Cognitive Testing (ImPACT), the "value added" of neurocognitive testing after sports-related concussion, 1630
Impingement, glenohumeral range of motion deficits and posterior shoulder tightness in throwers with pathologic internal impingement, 385
In situ forces
anatomical double-bundle anterior cruciate ligament reconstruction after valgus high tibial osteotomy, 961
importance of femoral tunnel placement in double-bundle posterior cruciate ligament reconstruction, 456
In vitro, kinematics of the posterior cruciate ligament/posterolateral corner–injured knee after reconstruction by single- and double-bundle intra-articular grafts, 741
Incidence rate
bone stress injuries causing exercise-induced knee pain, 78
incidence of injuries in elite French youth soccer players, 928
injuries in team sport tournaments during the 2004 Olympic Games, 565
Infection, suture anchors and tacks for shoulder surgery, part II, 136
Infectious diseases, infectious disease outbreaks in competitive sports: a review of the literature, 1860
Inferior capsular shift procedure, effect of the inferior capsular shift on shoulder intra-articular pressure, 939
Injury
acute cervical spine injuries in mountain biking, 487
anterior cruciate ligament injuries in female athletes, 299
bone stress injuries causing exercise-induced knee pain, 78
effect of functional bracing on knee injury in skiers with anterior cruciate ligament reconstruction, 1581
high-impact athletics after knee articular cartilage repair, 1413
incidence of injuries in elite French youth soccer players, 928
injuries in team sport tournaments during the 2004 Olympic Games, 565
injuries to high school football athletes in California, 1147
injury rates, risk factors, and mechanisms of injury in minor hockey, 1960
knee angular impulse as a predictor of patellofemoral pain in runners, 1844
predictors of stress fracture susceptibility in young female recruits, 108
relationship between menstrual cycle phase and anterior cruciate ligament injury, 757
risk factors for injury in indoor compared with outdoor adolescent soccer, 1636
risk factors for noncontact ankle sprains in high school athletes, 464
Injury prevention
anterior cruciate ligament injuries in female athletes, 490
incidence, risk, and prevention of hamstring muscle injuries in professional rugby union, 1297
understanding and preventing noncontact anterior cruciate ligament injuries, 1512
Insertion
anatomical study of the femoral and tibial insertions of the anteromedial and posterolateral bundles of human anterior cruciate ligament, 787
surgical anatomy of the triceps brachii tendon, 1839
Interference fixation, structural properties of lateral collateral ligament reconstruction at the fibular head, 24
Interference screw
biodegradable and metallic interference screws in anterior cruciate ligament reconstruction surgery using hamstring tendon grafts, 1574
distal biceps tendon repair, 968
long-term outcome of endoscopic anterior cruciate ligament reconstruction with patellar tendon autograft, 721

Internal fixation, osteochondritis dissecans of the entire femoral trochlea, 1508
International Knee Documentation Committee (IKDC), International Knee Documentation Committee subjective knee evaluation form, 128
Intra-articular pressure, effect of the inferior capsular shift on shoulder intra-articular pressure, 939
Inversion injury, risk factors for noncontact ankle sprains in high school athletes, 464
Isometric, weakness in end-range plantar flexion after Achilles tendon repair, 1120
Joints
  effect of the inferior capsular shift on shoulder intra-articular pressure, 939
  knee angular impulse as a predictor of patellofemoral pain in runners, 1844
  range of joint movement in female dancers and non-dancers aged 8 to 16 years, 814
Jones fracture, tension-band wiring for fractures of the fifth metatarsal located in the junction of the proximal metaphysis and diaphysis, 476
Jump landing, relationship between quadriceps muscle force, knee flexion, and anterior cruciate ligament strain in an in vitro simulated jump landing, 269
"Killer turn" effect, arthroscopic transtibial posterior cruciate ligament reconstruction with preservation of posterior cruciate ligament fibers, 194
Kinematics
  importance of femoral tunnel placement in double-bundle posterior cruciate ligament reconstruction, 456
  kinetic comparison among the fastball, curveball, change-up, and slider in collegiate baseball pitchers, 423
Klippel-Feil syndrome, central cord syndrome in patients with Klippel-Feil syndrome resulting from winter sports: report of 3 cases, 1685
Knee
  anatomical reconstruction of knee posterolateral complex with the tendon of the long head of biceps femoris, 1615
  arthroscopic release of the vastus lateralis tendon for recurrent patellar dislocation, 824
  autologous chondrocyte implantation postoperative care and rehabilitation, 1020
  bone stress injuries causing exercise-induced knee pain, 78
  continuous femoral nerve block versus intra-articular injection for pain control after anterior cruciate ligament reconstruction, 1328
  distraction forces on repaired bucket-handle lesions in the medial meniscus, 1941
  effect of direction and reaction on the neuromuscular and biomechanical characteristics of the knee during tasks that simulate the noncontact anterior cruciate ligament injury mechanism, 43
  effect of functional bracing on knee injury in skiers with anterior cruciate ligament reconstruction, 1581
  effects of medialization and anteromedialization of the tibial tubercle on patellofemoral mechanics and kinematics, 749
  importance of femoral tunnel placement in double-bundle posterior cruciate ligament reconstruction, 456
  kinematics of the posterior cruciate ligament/posterolateral corner–injured knee after reconstruction by single- and double-bundle intra-articular grafts, 741
  knee angular impulse as a predictor of patellofemoral pain in runners, 1844
  magnetic resonance imaging abnormalities in symptomatic and contralateral knees prevalence and associations with traumatic history in general practice, 1984
  medial opening wedge tibial osteotomy and the sagittal plane, 1431
  meniscal tear characteristics in young athletes with a stable knee, 1170
  relationship between quadriceps muscle force, knee flexion, and anterior cruciate ligament strain in an in vitro simulated jump landing, 269
  responsiveness of the International Knee Documentation Committee subjective knee form, 1567
  translation and validation of the dutch version of the International Knee Documentation Committee subjective knee form, 1680
  ultrasound-guided sclerosis of neovessels in painful chronic patellar tendinopathy: a randomized controlled trial, 1738
  understanding and preventing noncontact anterior cruciate ligament injuries, 1512
  in vivo injury model of posterolateral knee instability, 1313
Knee biomechanics
  tibiofemoral contact mechanics after serial medial meniscectomies in the human cadaveric knee, 1334
  where should the femoral tunnel of a posterior cruciate ligament reconstruction be placed to best restore anteroposterior laxity and ligament forces?, 604
Knee injuries
  anatomical posterior cruciate ligament transplantation, 1126
  anterior cruciate ligament injuries in female athletes, 490
  peak torque and rotational stiffness developed at the shoe-surface interface, 415
  popliteus strain causing tibial nerve palsy with a permanent partial deficit, 1176
  the role of the medial collateral ligament and posteromedial capsule in controlling knee laxity, 1815
Knee kinematics, six degrees of freedom kinematics of the knee after anterior cruciate ligament deficiency, 1240
Knee outcomes instrument, International Knee Documentation Committee subjective knee evaluation form, 128
Lacrosse
  comparing the incidence of anterior cruciate ligament injury in collegiate lacrosse, soccer, and basketball players, 899
  the effect of protective equipment on cervical spine alignment in collegiate lacrosse players, 1675
Landing forces, maturation leads to gender differences in landing force and vertical jump performance, 806
Large-animal study
  an allogenic cell–based implant for meniscal lesions, 1779

effects of calcified cartilage on healing of chondral defects treated with microfracture in horses, 1824
Lateral collateral ligament, structural properties of lateral collateral ligament reconstruction at the fibular head, 24
Lateral column injuries, complete cuboid dislocation in a professional baseball player, 21
Lateral epicondylitis
treatment of chronic elbow tendinosis with buffered platelet-rich plasma, 1774
in vivo assessment of arthroscopic debridement and correlation with patient outcomes, 1486
Lateral ligaments, twenty-six-year results after Broström procedure for chronic lateral ankle instability, 975
Lateral release, arthroscopic release of the vastus lateralis tendon for recurrent patellar dislocation, 824
Latissimus dorsi, surgical repair of an acute latissimus dorsi tendon avulsion using suture anchors through a single incision, 1351
Laxity
biomechanical and anatomical effects of an external rotational torque applied to the knee: a cadaveric study, 1623
gender differences in outcome after anterior cruciate ligament reconstruction with hamstring tendon autograft, 621
kinematics of the posterior cruciate ligament/posterolateral corner–injured knee after reconstruction by single- and double-bundle intra-articular grafts, 741
the role of the medial collateral ligament and posteromedial capsule in controlling knee laxity, 1815
in vivo kinematics of the knee after anterior cruciate ligament reconstruction a clinical and functional evaluation, 2006
Leg pain, exercise-related leg pain in female collegiate athletes, 1500
Length tension, weakness in end-range plantar flexion after Achilles tendon repair, 1120
Ligament injuries
analysis of the causes of failure in 57 consecutive posterolateral operative procedures, 1419
ligamentous posttraumatic ankle osteoarthritis, 612
prospective, randomized clinical investigation of the treatment of first-time ankle sprains, 1401
relationship between quadriceps muscle force, knee flexion, and anterior cruciate ligament strain in an in vitro simulated jump landing, 269
Ligament reconstruction
comparison of bone–patellar tendon–bone and bone–hamstring tendon–bone autografts for anterior cruciate ligament reconstruction, 213
low-intensity pulsed ultrasound accelerates and a nonsteroidal anti-inflammatory drug delays knee ligament healing, 1094
twenty-six-year results after Broström procedure for chronic lateral ankle instability, 975
Limb symmetry, jump-land characteristics and muscle strength development in young athletes, 375
Locked metacarpophalangeal joint, locked metacarpophalangeal joint in a 20-year-old football player, 29
Long-distance running, volume changes in the menisci and articular cartilage of runners, 832
Long-term results
digital radiographic evaluation of medial joint space narrowing after partial meniscectomy of bucket-handle medial meniscus tears in anterior cruciate ligament–intact knees, 1648
long-term outcome of endoscopic anterior cruciate ligament reconstruction with patellar tendon autograft, 721
long-term results of extracorporeal shockwave treatment for plantar fasciitis, 592
midterm and long-term results after arthroscopic suture repair of isolated, longitudinal, vertical meniscal tears in stable knees, 1072
recurrent subluxation of the peroneal tendons, 986
Low arch, interaction of arch type and footwear on running mechanics, 1998
Low-intensity pulsed ultrasound (LIPUS), low-intensity pulsed ultrasound accelerates bone-tendon junction healing, 1287
Magnetic resonance imaging (MRI)
arthroscopic transtibial posterior cruciate ligament reconstruction with preservation of posterior cruciate ligament fibers, 194
bone stress injuries causing exercise-induced knee pain, 78
comparison between clinical assessment and magnetic resonance imaging of acute hamstring injuries, 1008
hamstring muscle function after tendon harvest for anterior cruciate ligament reconstruction, 281
human meniscus allografts' in vivo size and motion characteristics, 98
magnetic resonance imaging abnormalities in symptomatic and contralateral knees prevalence and associations with traumatic history in general practice, 1984
magnetic resonance imaging analysis of bioabsorbable interference screws used for fixation of bone–patellar tendon–bone autografts in endoscopic reconstruction of the anterior cruciate ligament, 1164
magnetic resonance imaging of articular cartilage, 661
outcomes of stress fractures of the talus, 1809
pectoralis major tears, 289
six degrees of freedom kinematics of the knee after anterior cruciate ligament deficiency, 1240
volume changes in the menisci and articular cartilage of runners, 832
Malleolar osteotomy, mosaicplasty with autogenous talar autograft for osteochondral lesions of the talus after failed primary arthroscopic management, 55
Matrix metallopeptidase (MMP), androgenic-anabolic steroids associated with mechanical loading inhibit matrix metallopeptidase activity and affect the remodeling of the Achilles tendon in rats, 1274
Matrix metalloproteinase (MMP), mechanical and biochemical effect of monopolar radiofrequency energy on human articular cartilage, 1322
Maturity, effect of gender and maturity on quadriceps-to-hamstring strength ratio and anterior cruciate ligament laxity, 370

Medial collateral ligament (MCL)
low-intensity pulsed ultrasound accelerates and a nonsteroidal anti-inflammatory drug delays knee ligament healing, 1094
operative and nonoperative treatments of medial collateral ligament rupture with early anterior cruciate ligament reconstruction, 1134
the role of the medial collateral ligament and posteromedial capsule in controlling knee laxity, 1815
Medial elbow, operative treatment of ulnar collateral ligament insufficiency of the elbow in female athletes, 431
Medial meniscectomy, digital radiographic evaluation of medial joint space narrowing after partial meniscectomy of bucket-handle medial meniscus tears in anterior cruciate ligament–intact knees, 1648
Medial meniscus, tibiofemoral contact mechanics after serial medial meniscectomies in the human cadaveric knee, 1334
Medial patellofemoral ligament (MPFL)
medial patellofemoral ligament reconstruction in patients with lateral patellar instability and trochlear dysplasia, 1254
technical errors during medial patellofemoral ligament reconstruction could overload medial patellofemoral cartilage, 1478
Medial ulnar collateral ligament (MUCL), medial ulnar collateral ligament reconstruction of the elbow in throwing athletes, 1926
Meniscal healing
elongation and structural properties of meniscal repair using suture techniques in distraction and shear force scenarios, 799
midterm and long-term results after arthroscopic suture repair of isolated, longitudinal, vertical meniscal tears in stable knees, 1072
Meniscectomy
long-term outcome for large meniscal defects treated with small intestinal submucosa in a dog model, 32
prospective evaluation of allograft meniscus transplantation, 919
tibiofemoral contact mechanics after serial medial meniscectomies in the human cadaveric knee, 1334
Meniscofemoral ligament (MFL), incidence and cross-sectional area of the meniscofemoral ligament, 1345
Meniscus
all-inside meniscal repair using a new flexible, tensionable device, 1281
an allogenic cell–based implant for meniscal lesions, 1779
distraction forces on repaired bucket-handle lesions in the medial meniscus, 1941
human meniscus allografts' in vivo size and motion characteristics, 98
influence of intraoperative pretensioning on the chondroprotective effect of meniscal transplants, 397
long-term outcome for large meniscal defects treated with small intestinal submucosa in a dog model, 32
meniscal allograft transplantation in the sheep knee, 1464
meniscal tear characteristics in young athletes with a stable knee, 1170
prospective evaluation of allograft meniscus transplantation, 919
replacement of the knee meniscus by a porous polymer implant, 64
Menstrual status
predictors of stress fracture susceptibility in young female recruits, 108
relationship between menstrual cycle phase and anterior cruciate ligament injury, 757
Metatarsal, tension-band wiring for fractures of the fifth metatarsal located in the junction of the proximal metaphysis and diaphysis, 476
Microcirculation
Achilles tendon and paratendon microcirculation in midportion and insertional tendinopathy in athletes, 92
changes of Achilles midportion tendon microcirculation after repetitive simultaneous cryotherapy and compression using a Cryo/Cuff, 1953
Microfracture
effects of calcified cartilage on healing of chondral defects treated with microfracture in horses, 1824
high-impact athletics after knee articular cartilage repair, 1413
Microwave diathermy, short-term effectiveness of hyperthermia for supraspinatus tendinopathy in athletes, 1247
Military recruits
intrinsic risk factors for the development of Achilles tendon overuse injury, 226
predictors of stress fracture susceptibility in young female recruits, 108
Mosaicplasty
autologous osteochondral mosaicplasty for capitellar osteochondritis dissecans in teenaged patients, 1233
mosaicplasty with autogenous talar autograft for osteochondral lesions of the talus after failed primary arthroscopic management, 55
Motion
human meniscus allografts' in vivo size and motion characteristics, 98
scapular kinematics during supraspinatus rehabilitation exercise, 644
Motor control, altered neuromuscular control and ankle joint kinematics during walking in subjects with functional instability of the ankle joint, 1970
Mountain biking, acute cervical spine injuries in mountain biking, 487
Multidirectional instability (MDI), effect of the inferior capsular shift on shoulder intra-articular pressure, 939
Multiligament injury, operative and nonoperative treatments of medial collateral ligament rupture with early anterior cruciate ligament reconstruction, 1134
Muscle strength
effect of gender and maturity on quadriceps-to-hamstring strength ratio and anterior cruciate ligament laxity, 370
intrinsic risk factors for the development of Achilles tendon overuse injury, 226
jump-land characteristics and muscle strength development in young athletes, 375

National Basketball Association (NBA), injury risk in professional basketball players, 1077
Neuromuscular training
anterior cruciate ligament injuries in female athletes, 490
effects of plyometric versus dynamic stabilization and balance training on lower extremity biomechanics, 445
maturation leads to gender differences in landing force and vertical jump performance, 806
Neuropsychological testing, the "value added" of neurocognitive testing after sports-related concussion, 1630
Nonanatomical repair, modified Bristow procedure for anterior shoulder instability, 778
Noncontact lateral ankle sprain, risk factors for noncontact ankle sprains in high school football players, 471
Nonsteroidal anti-inflammatory drug (NSAID), indomethacin and celecoxib impair rotator cuff tendon-to-bone healing, 362
Noradrenaline, pronociceptive and antinociceptive neuromediators in patellar tendinopathy, 1801
Nordic hamstring exercise, incidence, risk, and prevention of hamstring muscle injuries in professional rugby union, 1297
Normative data, International Knee Documentation Committee subjective knee evaluation form, 128
Occult fracture, tarsal tunnel syndrome in athletes, 1307
Olympic Games, injuries in team sport tournaments during the 2004 Olympic Games, 565
Opening wedge osteotomy, opening wedge high tibial osteotomy, 1262
Osteoarthritis
midterm and long-term results after arthroscopic suture repair of isolated, longitudinal, vertical meniscal tears in stable knees, 1072
sports and recreation activity of ankle arthritis patients before and after total ankle replacement, 993
in vivo injury model of posterolateral knee instability, 1313
volume changes in the menisci and articular cartilage of runners, 832
Osteochondral allograft
comparison of fresh osteochondral autografts and allografts, 1084
does subchondral bone affect the fate of osteochondral allografts during storage?, 586
Osteochondral autografts
comparison of fresh osteochondral autografts and allografts, 1084
osteochondral autograft transplantation for osteochondritis dissecans of the elbow in juvenile baseball players, 714
osteochondral autograft transplantation in the porcine knee, 913
use of a single osteochondral autograft plug in the treatment of a large osteochondral lesion in the femoral condyle, 247
Osteochondral defect
does subchondral bone affect the fate of osteochondral allografts during storage?, 586
use of a single osteochondral autograft plug in the treatment of a large osteochondral lesion in the femoral condyle, 247
Osteochondral lesions
mosaicplasty with autogenous talar autograft for osteochondral lesions of the talus after failed primary arthroscopic management, 55
retrograde drilling for osteochondral lesions of the talar dome, 1450
talar dome access for osteochondral lesions, 1457
Osteochondral transplant, effect of angled osteochondral grafting on contact pressure, 116
Osteochondritis dissecans (OCD)
autologous osteochondral mosaicplasty for capitellar osteochondritis dissecans in teenaged patients, 1233
management of osteochondritis dissecans of the knee, 1181
osteochondral autograft transplantation for osteochondritis dissecans of the elbow in juvenile baseball players, 714
osteochondritis dissecans of the entire femoral trochlea, 1508
Osteotomy
effects of medialization and anteromedialization of the tibial tubercle on patellofemoral mechanics and kinematics, 749
talar dome access for osteochondral lesions, 1457
Outcomes
arthroscopic release of the vastus lateralis tendon for recurrent patellar dislocation, 824
outcomes of anterior cruciate ligament injuries to running backs and wide receivers in the National Football League, 1911
patterns of vascular and anatomical response after rotator cuff repair, 120
Overuse injury, exercise-related leg pain in female collegiate athletes, 1500
Overweight, risk factors for noncontact ankle sprains in high school football players, 471
Pain
Achilles tendon and paratendon microcirculation in midportion and insertional tendinopathy in athletes, 92
are pain location and physical examinations useful in locating a tear site of the rotator cuff?, 256
continuous femoral nerve block versus intra-articular injection for pain control after anterior cruciate ligament reconstruction, 1328
pronociceptive and antinociceptive neuromediators in patellar tendinopathy, 1801
Paraplegia, acute cervical spine injuries in mountain biking, 487
Partial patellectomy model, low-intensity pulsed ultrasound accelerates bone-tendon junction healing, 1287
Patellar tendon
comparison of bone–patellar tendon–bone and bone–hamstring tendon–bone autografts for anterior cruciate ligament reconstruction, 213
femoral press-fit fixation technique in anterior cruciate ligament reconstruction using bone–patellar tendon–bone graft, 220

long-term outcome of endoscopic anterior cruciate ligament reconstruction with patellar tendon autograft, 721
magnetic resonance imaging analysis of bioabsorbable interference screws used for fixation of bone–patellar tendon–bone autografts in endoscopic reconstruction of the anterior cruciate ligament, 1164
a prospective, randomized comparison of semitendinosus and gracilis tendon versus patellar tendon autografts for anterior cruciate ligament reconstruction: five-year follow-up, 1933
recalcitrant patellar tendinosis in elite athletes, 1141
use of suture anchors in repair of the ruptured patellar tendon, 1492

Patellofemoral
autologous chondrocyte implantation postoperative care and rehabilitation, 1020
effects of medialization and anteromedialization of the tibial tubercle on patellofemoral mechanics and kinematics, 749
patellofemoral full-thickness chondral defects treated with Hyalograft-C: a clinical, arthroscopic, and histologic review, 1763
role of hip muscle function in the treatment of patellofemoral pain syndrome, 630
technical errors during medial patellofemoral ligament reconstruction could overload medial patellofemoral cartilage, 1478

Patient-oriented outcomes, responsiveness of the International Knee Documentation Committee subjective knee form, 1567

Pectoralis major
correlation of magnetic resonance imaging and treatment strategies, 289
revision reconstruction of a pectoralis major tendon rupture using hamstring autograft, 295

Pectoralis minor muscle, thoracic outlet syndrome in a competitive baseball player secondary to the anomalous insertion of an atrophic pectoralis minor muscle, 1016

Percutaneous suture repair, avoiding sural nerve injuries during percutaneous Achilles tendon repair, 793

Peroneal tendon subluxation, recurrent subluxation of the peroneal tendons, 986

Peroneus tertius, significance of peroneus tertius muscle in ankle injuries, 1159

Physical examination, are pain location and physical examinations useful in locating a tear site of the rotator cuff?, 256

Physical therapy, comparison between clinical assessment and magnetic resonance imaging of acute hamstring injuries, 1008

Physis, wrist pain, distal radial physeal injury, and ulnar variance in the young gymnast, 840

Plantar fasciitis, long-term results of extracorporeal shockwave treatment for plantar fasciitis, 592

Platelet-rich plasma (PRP), treatment of chronic elbow tendinosis with buffered platelet-rich plasma, 1774

Plica, arthroscopic treatment of posterolateral elbow impingement from lateral synovial plicae in throwing athletes and golfers, 438

Plyometrics
anterior cruciate ligament injuries in female athletes, 490
effects of plyometric versus dynamic stabilization and balance training on lower extremity biomechanics, 445

Polylactic acid, magnetic resonance imaging analysis of bioabsorbable interference screws used for fixation of bone–patellar tendon–bone autografts in endoscopic reconstruction of the anterior cruciate ligament, 1164

Polymer, replacement of the knee meniscus by a porous polymer implant, 64

Popliteus strain, popliteus strain causing tibial nerve palsy with a permanent partial deficit, 1176

Popliteus tendon, in vivo injury model of posterolateral knee instability, 1313

Posterior cruciate ligament (PCL)
anatomical posterior cruciate ligament transplantation, 1126
arthroscopic transtibial posterior cruciate ligament reconstruction with preservation of posterior cruciate ligament fibers, 194
importance of femoral tunnel placement in double-bundle posterior cruciate ligament reconstruction, 456
incidence and cross-sectional area of the meniscofemoral ligament, 1345
kinematics of the posterior cruciate ligament/posterolateral corner–injured knee after reconstruction by single- and double-bundle intra-articular grafts, 741
where should the femoral tunnel of a posterior cruciate ligament reconstruction be placed to best restore anteroposterior laxity and ligament forces?, 604

Posterior instability, arthroscopic capsulolabral reconstruction for posterior instability of the shoulder, 1061

Posterolateral bundle (PLB), anatomical study of the femoral and tibial insertions of the anteromedial and posterolateral bundles of human anterior cruciate ligament, 787

Posterolateral complex (PLC), anatomical reconstruction of knee posterolateral complex with the tendon of the long head of biceps femoris, 1615

Posterolateral corner, biomechanical and anatomical effects of an external rotational torque applied to the knee: a cadaveric study, 1623

Posterolateral knee, in vivo injury model of posterolateral knee instability, 1313

Posterolateral operative procedures, analysis of the causes of failure in 57 consecutive posterolateral operative procedures, 1419

Posterolateral (PL) graft, anatomical double-bundle anterior cruciate ligament reconstruction after valgus high tibial osteotomy, 961

Posteromedial capsule (PMC), the role of the medial collateral ligament and posteromedial capsule in controlling knee laxity, 1815

Preselection tool, dynamic ultrasound as a selection tool for reducing Achilles tendon reruptures, 1395

Press-fit fixation, femoral press-fit fixation technique in anterior cruciate ligament reconstruction using bone–patellar tendon–bone graft, 220

Pressure, technical errors during medial patellofemoral ligament reconstruction could overload medial patellofemoral cartilage, 1478
Prevention
effect of a balance training program on the risk of ankle sprains in high school athletes, 1103
risk factors for shoulder and elbow injuries in adolescent baseball pitchers, 905
shock attenuation of various protective devices for prevention of fall-related injuries of the forearm/hand complex, 637
Prospective
intrinsic risk factors for the development of Achilles tendon overuse injury, 226
operative and nonoperative treatments of medial collateral ligament rupture with early anterior cruciate ligament reconstruction, 1134
Prosthesis, replacement of the knee meniscus by a porous polymer implant, 64
Protective equipment, the effect of protective equipment on cervical spine alignment in collegiate lacrosse players, 1675
Puberty, maturation leads to gender differences in landing force and vertical jump performance, 806
Quadriceps
anterior cruciate ligament revision reconstruction, 553
relationship between quadriceps muscle force, knee flexion, and anterior cruciate ligament strain in an in vitro simulated jump landing, 269
Quadriplegia, catastrophic cervical spine injuries in high school and college football players, 1223
Rabbits, in vivo injury model of posterolateral knee instability, 1313
Race, anterior cruciate ligament tear rate varies by race in professional women's basketball, 895
Radiofrequency energy (RFE), mechanical and biochemical effect of monopolar radiofrequency energy on human articular cartilage, 1322
Radiographs, digital radiographic evaluation of medial joint space narrowing after partial meniscectomy of bucket-handle medial meniscus tears in anterior cruciate ligament–intact knees, 1648
Randomized, operative and nonoperative treatments of medial collateral ligament rupture with early anterior cruciate ligament reconstruction, 1134
Range of motion (ROM)
arthroscopic rotator interval closure: effect of sutures on glenohumeral motion and anterior-posterior translation, 1656
elbow range of motion in professional baseball pitchers, 190
intrinsic risk factors for the development of Achilles tendon overuse injury, 226
range of joint movement in female dancers and nondancers aged 8 to 16 years, 814
RapidLoc, all-inside meniscal repair using a new flexible, tensionable device, 1281
Reconstruction
anatomical reconstruction of knee posterolateral complex with the tendon of the long head of biceps femoris, 1615
effect of functional bracing on knee injury in skiers with anterior cruciate ligament reconstruction, 1581
gender differences in outcome after anterior cruciate ligament reconstruction with hamstring tendon autograft, 621
kinematics of the posterior cruciate ligament/posterolateral corner–injured knee after reconstruction by single- and double-bundle intra-articular grafts, 741
a prospective, randomized comparison of semitendinosus and gracilis tendon versus patellar tendon autografts for anterior cruciate ligament reconstruction: five-year follow-up, 1933
recurrent dislocation of the tibialis posterior tendon, 1852
structural properties of lateral collateral ligament reconstruction at the fibular head, 24
technical errors during medial patellofemoral ligament reconstruction could overload medial patellofemoral cartilage, 1478
in vivo kinematics of the knee after anterior cruciate ligament reconstruction a clinical and functional evaluation, 2006
Rehabilitation
autologous chondrocyte implantation postoperative care and rehabilitation, 1020
comparison between clinical assessment and magnetic resonance imaging of acute hamstring injuries, 1008
hamstring muscle function after tendon harvest for anterior cruciate ligament reconstruction, 281
prospective, randomized clinical investigation of the treatment of first-time ankle sprains, 1401
recalcitrant patellar tendinosis in elite athletes, 1141
role of hip muscle function in the treatment of patellofemoral pain syndrome, 630
Remodeling, androgenic-anabolic steroids associated with mechanical loading inhibit matrix metallopeptidase activity and affect the remodeling of the Achilles tendon in rats, 1274
Renal failure, epidemiological analysis of factors influencing an episode of exertional rhabdomyolysis in high school students, 481
Repair
all-inside meniscal repair using a new flexible, tensionable device, 1281
high-impact athletics after knee articular cartilage repair, 1413
Rerupture, dynamic ultrasound as a selection tool for reducing Achilles tendon reruptures, 1395
Resorption, magnetic resonance imaging analysis of bioabsorbable interference screws used for fixation of bone–patellar tendon–bone autografts in endoscopic reconstruction of the anterior cruciate ligament, 1164
Responsiveness, responsiveness of the International Knee Documentation Committee subjective knee form, 1567
Retrograde drilling, retrograde drilling for osteochondral lesions of the talar dome, 1450
Return to sport, high-impact athletics after knee articular cartilage repair, 1413
Revision anterior cruciate ligament reconstruction
anterior cruciate ligament revision reconstruction, 553
current concept review: revision anterior cruciate ligament reconstruction, 2026

Risk factors
injuries to high school football athletes in California, 1147
relationship between menstrual cycle phase and anterior cruciate ligament injury, 757
Robotic/universal force-moment sensor (UFS) testing system, differences in torsional joint stiffness of the knee between genders, 765
Robotics, importance of femoral tunnel placement in double-bundle posterior cruciate ligament reconstruction, 456
Rotator cuff
allograft reconstruction for massive, irreparable rotator cuff tears, 392
are pain location and physical examinations useful in locating a tear site of the rotator cuff?, 256
biomechanical comparison of a single-row versus double-row suture anchor technique for rotator cuff repair, 407
biomechanical comparison of traditional and locked suture configurations for arthroscopic repairs of the rotator cuff, 1832
effects of augmentation with swine small intestine submucosa on tendon healing under tension, 275
evaluation of apparent and absolute supraspinatus strength in patients with shoulder injury using the scapular retraction test, 1643
indomethacin and celecoxib impair rotator cuff tendon-to-bone healing, 362
outcome and structural integrity after arthroscopic rotator cuff repair using 2 rows of fixation: minimum 2-year follow-up, 1899
patterns of vascular and anatomical response after rotator cuff repair, 120
repair of full-thickness rotator cuff tears in professional baseball players, 182
rotator cuff functional index, 956
scapular kinematics during supraspinatus rehabilitation exercise, 644
short-term effectiveness of hyperthermia for supraspinatus tendinopathy in athletes, 1247
Rotator interval closure, arthroscopic rotator interval closure: effect of sutures on glenohumeral motion and anterior-posterior translation, 1656
Rotatory joint laxity, differences in torsional joint stiffness of the knee between genders, 765
Rugby, incidence, risk, and prevention of hamstring muscle injuries in professional rugby union, 1297
Scaffold, patellofemoral full-thickness chondral defects treated with Hyalograft-C: a clinical, arthroscopic, and histologic review, 1763
Second-look arthroscopy, arthroscopic transtibial posterior cruciate ligament reconstruction with preservation of posterior cruciate ligament fibers, 194
Shear forces, elongation and structural properties of meniscal repair using suture techniques in distraction and shear force scenarios, 799
Shockwave treatment, long-term results of extracorporeal shockwave treatment for plantar fasciitis, 592
Shoes, interaction of arch type and footwear on running mechanics, 1998
Shoulder
anatomical glenoid reconstruction for recurrent anterior glenohumeral instability with glenoid deficiency using an autogenous tricortical iliac crest bone graft, 205
anterior shoulder stabilization in collision athletes, 979
arthroscopic capsulolabral reconstruction for posterior instability of the shoulder, 1061
arthroscopic versus open shoulder stabilization for recurrent anterior instability: a prospective randomized clinical trial, 1730
biomechanical evaluation of an anatomical coracoclavicular ligament reconstruction, 236
evaluation of apparent and absolute supraspinatus strength in patients with shoulder injury using the scapular retraction test, 1643
evaluation of the provocative tests for superior labral anterior posterior lesions, 265
indomethacin and celecoxib impair rotator cuff tendon-to-bone healing, 362
kinematics and kinetics of elite windmill softball pitching, 597
kinetic comparison among the fastball, curveball, change-up, and slider in collegiate baseball pitchers, 423
long-term results of arthroscopic Bankart repair with a bioabsorbable tack, 1906
modified Bristow procedure for anterior shoulder instability, 778
outcome and structural integrity after arthroscopic rotator cuff repair using 2 rows of fixation: minimum 2-year follow-up, 1899
postoperative subscapularis muscle insufficiency after primary and revision open shoulder stabilization, 1586
prospective outcome evaluation of arthroscopic Bankart repairs, 771
quantitative assessment of glenohumeral translation after anterior shoulder dislocation and subsequent arthroscopic Bankart repair, 1756
repair of full-thickness rotator cuff tears in professional baseball players, 182
rotator cuff functional index, 956
scapular kinematics during supraspinatus rehabilitation exercise, 644
surgical stabilization of os acromiale in a fast-pitch softball pitcher, 1855
suture anchors and tacks for shoulder surgery, part II, 136
thermal capsulorrhaphy for the treatment of shoulder instability, 1356
Showcase, risk factors for shoulder and elbow injuries in adolescent baseball pitchers, 905
Skiing, central cord syndrome in patients with Klippel-Feil syndrome resulting from winter sports: report of 3 cases, 1685
Small intestinal submucosa, long-term outcome for large meniscal defects treated with small intestinal submucosa in a dog model, 32
Snowboarding
central cord syndrome in patients with Klippel-Feil syndrome resulting from winter sports: report of 3 cases, 1685
traumatic spinal cord injuries from snowboarding, 1670

Soccer
effect of a balance training program on the risk of ankle sprains in high school athletes, 1103
incidence of injuries in elite French youth soccer players, 928
risk factors for injury in indoor compared with outdoor adolescent soccer, 1636
Softball
kinematics and kinetics of elite windmill softball pitching, 597
surgical stabilization of os acromiale in a fast-pitch softball pitcher, 1855
Soreness, effects of stretching on passive muscle tension and response to eccentric exercise, 1000
Spinal cord injury, traumatic spinal cord injuries from snowboarding, 1670
Sports activity
ligamentous posttraumatic ankle osteoarthritis, 612
sports and recreation activity of ankle arthritis patients before and after total ankle replacement, 993
Sprains, prospective, randomized clinical investigation of the treatment of first-time ankle sprains, 1401
Static, effects of stretching on passive muscle tension and response to eccentric exercise, 1000
Stenosing flexor tenosynovitis, locked metacarpophalangeal joint in a 20-year-old football player, 29
Stiffness
distal biceps tendon repair, 968
effects of stretching on passive muscle tension and response to eccentric exercise, 1000
Storage, does subchondral bone affect the fate of osteochondral allografts during storage?, 586
Strain, relationship between quadriceps muscle force, knee flexion, and anterior cruciate ligament strain in an in vitro simulated jump landing, 269
Strength
anterior cruciate ligament injuries in female athletes, 490
arthroscopic release of the vastus lateralis tendon for recurrent patellar dislocation, 824
incidence, risk, and prevention of hamstring muscle injuries in professional rugby union, 1297
structural properties of lateral collateral ligament reconstruction at the fibular head, 24
Stress fracture
bone stress injuries causing exercise-induced knee pain, 78
nonunion of olecranon stress fractures in adolescent baseball pitchers, 653
outcomes of stress fractures of the talus, 1809
tension-band wiring for fractures of the fifth metatarsal located in the junction of the proximal metaphysis and diaphysis, 476
Stretching, incidence, risk, and prevention of hamstring muscle injuries in professional rugby union, 1297
Subluxation, kinematics of the posterior cruciate ligament/posterolateral corner–injured knee after reconstruction by single- and double-bundle intra-articular grafts, 741
Subscapularis (SSC) insufficiency, postoperative subscapularis muscle insufficiency after primary and revision open shoulder stabilization, 1586
Subscapularis tears, transverse humeral ligament, 72
Substance P (SP), pronociceptive and antinociceptive neuromediators in patellar tendinopathy, 1801
Superior labral anterior posterior (SLAP) lesions, evaluation of the provocative tests for superior labral anterior posterior lesions, 265
Sural nerve injury, avoiding sural nerve injuries during percutaneous Achilles tendon repair, 793
Surgery
anterior cruciate ligament reconstruction using navigation, 542
biomechanical evaluation of an anatomical coracoclavicular ligament reconstruction, 236
recalcitrant patellar tendinosis in elite athletes, 1141
risk factors for shoulder and elbow injuries in adolescent baseball pitchers, 905
surgical repair of an acute latissimus dorsi tendon avulsion using suture anchors through a single incision, 1351
talar dome access for osteochondral lesions, 1457
Suture anchors
biomechanical comparison of a single-row versus double-row suture anchor technique for rotator cuff repair, 407
surgical repair of an acute latissimus dorsi tendon avulsion using suture anchors through a single incision, 1351
use of suture anchors in repair of the ruptured patellar tendon, 1492
Synovitis, suture anchors and tacks for shoulder surgery, part II, 136
T2 mapping
magnetic resonance imaging of articular cartilage, 661
meniscal allograft transplantation in the sheep knee, 1464
T2 relaxation time, hamstring muscle function after tendon harvest for anterior cruciate ligament reconstruction, 281
Talar dome, retrograde drilling for osteochondral lesions of the talar dome, 1450
Talocalcaneal coalition, tarsal tunnel syndrome in athletes, 1307
Talus
outcomes of stress fractures of the talus, 1809
talar dome access for osteochondral lesions, 1457
Tarsal tunnel syndrome, tarsal tunnel syndrome in athletes, 1307
Team sports, injuries in team sport tournaments during the 2004 Olympic Games, 565
Tear
evaluation of the provocative tests for superior labral anterior posterior lesions, 265
meniscal tear characteristics in young athletes with a stable knee, 1170
Tekscan, tibiofemoral contact mechanics after serial medial meniscectomies in the human cadaveric knee, 1334
Tendinopathy
Achilles tendon and paratendon microcirculation in midportion and insertional tendinopathy in athletes, 92
lateral epicondylitis, 1486

pronociceptive and antinociceptive neuromediators in patellar tendinopathy, 1801
short-term effectiveness of hyperthermia for supraspinatus tendinopathy in athletes, 1247
Tendinosis, recalcitrant patellar tendinosis in elite athletes, 1141
Tendon avulsion, surgical repair of an acute latissimus dorsi tendon avulsion using suture anchors through a single incision, 1351
Tendon injuries
androgenic-anabolic steroids associated with mechanical loading inhibit matrix metallopeptidase activity and affect the remodeling of the Achilles tendon in rats, 1274
high-energy extracorporeal shock wave therapy as a treatment for insertional Achilles tendinopathy, 733
massive heterotopic ossification complicating iliopsoas tendon lengthening, 2022
surgical anatomy of the triceps brachii tendon, 1839
surgical repair of an acute latissimus dorsi tendon avulsion using suture anchors through a single incision, 1351
treatment of chronic elbow tendinosis with buffered platelet-rich plasma, 1774
Tendon-to-bone, indomethacin and celecoxib impair rotator cuff tendon-to-bone healing, 362
Tendon transfer, anatomical reconstruction of knee posterolateral complex with the tendon of the long head of biceps femoris, 1615
Tennis, the effect of tennis racket grip size on forearm muscle firing patterns, 1977
Tensile properties, low-intensity pulsed ultrasound accelerates bone-tendon junction healing, 1287
Tensile strength, corticosteroids reduce the tensile strength of isolated collagen fascicles, 1992
Tension-band wiring, tension-band wiring for fractures of the fifth metatarsal located in the junction of the proximal metaphysis and diaphysis, 476
Therapeutic ultrasound, low-intensity pulsed ultrasound accelerates and a nonsteroidal anti-inflammatory drug delays knee ligament healing, 1094
Therapy, scapular kinematics during supraspinatus rehabilitation exercise, 644
Thermal capsulorrhaphy, thermal capsulorrhaphy for the treatment of shoulder instability, 1356
Thermal chondroplasty, mechanical and biochemical effect of monopolar radiofrequency energy on human articular cartilage, 1322
Thoracic outlet syndrome, thoracic outlet syndrome in a competitive baseball player secondary to the anomalous insertion of an atrophic pectoralis minor muscle, 1016
Throwing athletes
arthroscopic treatment of posterolateral elbow impingement from lateral synovial plicae in throwing athletes and golfers, 438
glenohumeral range of motion deficits and posterior shoulder tightness in throwers with pathologic internal impingement, 385
path of glenohumeral articulation throughout the rotational range of motion in a thrower's shoulder model, 1662
surgical stabilization of os acromiale in a fast-pitch softball pitcher, 1855
Tibial nerve palsy, popliteus strain causing tibial nerve palsy with a permanent partial deficit, 1176
Tibial slope
medial opening wedge tibial osteotomy and the sagittal plane, 1431
opening wedge high tibial osteotomy, 1262
Tibial wedge osteotomy, mosaicplasty with autogenous talar autograft for osteochondral lesions of the talus after failed primary arthroscopic management, 55
Tibialis tendon dislocation, recurrent dislocation of the tibialis posterior tendon, 1852
Tibiofemoral
autologous chondrocyte implantation postoperative care and rehabilitation, 1020
tibiofemoral contact mechanics after serial medial meniscectomies in the human cadaveric knee, 1334
Tissue engineering
an allogenic cell–based implant for meniscal lesions, 1779
long-term outcome for large meniscal defects treated with small intestinal submucosa in a dog model, 32
Tommy John surgery, medial ulnar collateral ligament reconstruction of the elbow in throwing athletes, 1926
Torque, kinetic comparison among the fastball, curveball, change-up, and slider in collegiate baseball pitchers, 423
Torsional joint stiffness, differences in torsional joint stiffness of the knee between genders, 765
Total ankle replacement (TAR), sports and recreation activity of ankle arthritis patients before and after total ankle replacement, 993
Tramadol, COX-2 specific inhibitor valdecoxib versus tramadol in acute ankle sprain, 945
Transpatellar tunnels, use of suture anchors in repair of the ruptured patellar tendon, 1492
Transplantation
anatomical posterior cruciate ligament transplantation, 1126
human meniscus allografts' in vivo size and motion characteristics, 98
influence of intraoperative pretensioning on the chondroprotective effect of meniscal transplants, 397
meniscal allograft transplantation in the sheep knee, 1464
osteochondral autograft transplantation in the porcine knee, 913
prospective evaluation of allograft meniscus transplantation, 919
Transverse humeral ligament, separate anatomical structure or a continuation of the osseous attachment of the rotator cuff?, 72
Trauma
ligamentous posttraumatic ankle osteoarthritis, 612
magnetic resonance imaging abnormalities in symptomatic and contralateral knees prevalence and associations with traumatic history in general practice, 1984
recurrent dislocation of the tibialis posterior tendon, 1852

Treatment, pectoralis major tears, 289
Triceps, surgical anatomy of the triceps brachii tendon, 1839
Trigger finger, locked metacarpophalangeal joint in a 20-year-old football player, 29
Trochlea
  medial patellofemoral ligament reconstruction in patients with lateral patellar instability and trochlear dysplasia, 1254
  osteochondritis dissecans of the entire femoral trochlea, 1508
Tunnel widening, tendon healing in a bone tunnel differs at the tunnel entrance versus the tunnel exit, 1790
Twist, effect of cyclic loading on rotated bone-tendon-bone anterior cruciate ligament graft constructs, 1442
Ulnar collateral ligament (UCL)
  biomechanical evaluation of 2 techniques for ulnar collateral ligament reconstruction of the elbow, 1599
  the modified docking procedure for elbow ulnar collateral ligament reconstruction: 2-year follow-up in elite throwers, 1594
  operative treatment of ulnar collateral ligament insufficiency of the elbow in female athletes, 431
Ulnar variance, wrist pain, distal radial physeal injury, and ulnar variance in the young gymnast, 840
Ultrasound
  dynamic ultrasound as a selection tool for reducing Achilles tendon reruptures, 1395
  mechanical and biochemical effect of monopolar radiofrequency energy on human articular cartilage, 1322
  outcome and structural integrity after arthroscopic rotator cuff repair using 2 rows of fixation: minimum 2-year follow-up, 1899
  patterns of vascular and anatomical response after rotator cuff repair, 120
  short-term effectiveness of hyperthermia for supraspinatus tendinopathy in athletes, 1247
  ultrasonographic investigation of the Achilles tendon in elite badminton players using color Doppler, 2013
  ultrasound-guided sclerosis of neovessels in painful chronic patellar tendinopathy: a randomized controlled trial, 1738
Valdecoxib, COX-2 specific inhibitor valdecoxib versus tramadol in acute ankle sprain, 945
Valgus instability, medial ulnar collateral ligament reconstruction of the elbow in throwing athletes, 1926
Varus malalignment, analysis of the causes of failure in 57 consecutive posterolateral operative procedures, 1419
Vascular endothelial growth factor (VEGF)
  effects of local administration of vascular endothelial growth factor on mechanical characteristics of the semitendinosus tendon graft after anterior cruciate ligament reconstruction in sheep, 1918
  effects of local administration of vascular endothelial growth factor on properties of the in situ frozen-thawed anterior cruciate ligament in rabbits, 84
Vascularity, patterns of vascular and anatomical response after rotator cuff repair, 120
Velocity, risk factors for shoulder and elbow injuries in adolescent baseball pitchers, 905
Vertical jump height, maturation leads to gender differences in landing force and vertical jump performance, 806
Victorian Institute of Sport Assessment (VISA) score, ultrasound-guided sclerosis of neovessels in painful chronic patellar tendinopathy: a randomized controlled trial, 1738
Weight lifting, revision reconstruction of a pectoralis major tendon rupture using hamstring autograft, 295
Women. *see also* Female athletes
  predictors of stress fracture susceptibility in young female recruits, 108
Women's National Basketball Association (WNBA), injury risk in professional basketball players, 1077
Wright, thoracic outlet syndrome in a competitive baseball player secondary to the anomalous insertion of an atrophic pectoralis minor muscle, 1016
Wrisberg, incidence and cross-sectional area of the meniscofemoral ligament, 1345
Wrist
  kinetic comparison among the fastball, curveball, change-up, and slider in collegiate baseball pitchers, 423
  wrist pain, distal radial physeal injury, and ulnar variance in the young gymnast, 840
Young athletes, incidence of injuries in elite french youth soccer players, 928
